to a wharf at Lahaina.

The motion was seconded and put in regular form by Senator Shingle, and carried, and the visitors were escorted back to the landing and cheered as they put off for the Kilauea waiting for them at the anchorage.

### Sea Favors Visit

A heavy swell, not nearly as bad as is frequent at Lahaina, served to emphasize the justice of Maui's demands, and made the visitors admittedly nervous as they negotiated it. The smooth water at Mala was also in marked contrast and made due impression.

The committee of the chamber of commerce which met the visitors was augmented so that 14 members in all were in the party when the senators landed. They were—President D. C. Lindsay, A. W. Collins, W. O. Aiken, W. H. J. Cooper, W. H. Field, C. D. Lufkin, D. H. Case, Hugh Howell, E. R. Bevins, William Walsh, D. T. Fleming, F. B. Cameron, H. B. Penhallow, and J. J. Walsh.

### Will Go To Honolulu

It was strongly recommended by the senators that a strong delegation be sent to Honolulu when the loan fund bill comes up in the house, for the purpose of helping the wharf item along, and also in order that Maui's ideas may be directly conveyed to the harbor board and to the Governor who are not supposed to be any too favorable to a "wharf without strings." It was accordingly decided that this will be done, and the committee therefore stands ready to leave for Honolulu on short notice to continue the work.

age, had influenced the body in the matter.

The arguments in the case began Tuesday afternoon. W. F. Crockett, representing the plaintiff, addressed the jury all afternoon and part of the next morning; and also in rebuttal before the case went to the jury.

Charles Hite, of the firm of Smith, Warren & Whitney, of Honolulu, who handled the case for the defense, assisted by L. J. Warren, made a strong argument, and evidently a good impression on the jury.

It is understood that the most of the time of the jury was taken up in dispute over the amount of damage that should be allowed to Bevins. At 6 o'clock the jury reported that it could not agree, and that it stood 11 to 1. It was allowed to go out to dinner, and it required nearly two hours more discussion after it returned, to bring about an agreement.

The jury was composed of—D. A. Klakona, Chauncey B. Miles, Gus Becker, A. K. Jim, Joseph Oliveira, Joseph Crockett, Sr., H. W. Engle, Jno. S. Pires, Edw. Lindsay, Geo. Freeland, John Morris, Reginald Humphreys.

Geo. Freeland was foreman of the jury.

## Believes Maui Can Win Ribbons In Flower Show

James Lindsay, chairman for Maui of the flowers and plants section of the territorial fair, believes that Maui will this year carry off many prizes in the cut flower section—a department that Maui did not do much in last year. Mr. Lindsay says that last year Maui flower lovers were afraid to compete with Honolulu, but after seeing the last year efforts they are no longer afraid.

Mrs. Harry A. Baldwin, who is chairman of the cut flower section from Maui, and who is in Honolulu at present, has written Mr. Lindsay urging him to urge flower fanciers to prune and feed their plants at once in order to have them at their best by June.

Mr. Lindsay says that Maui will be able to make a showing of roses, dahlias, daisies, sweet-peas, and lilies, particularly from the cooler sections of Kula and Olinda, that he does not believe Honolulu professional growers will have any chance against.

He will be glad to advise growers in matter of trimming or feeding their plants.

The picture is of an old tomb in the valley, and shows standing at one side of the tomb, a shrouded figure, semi-transparent, through which trees and other objects can be seen. Dimly outlined features under a cowl may also be made out. It is a first class ghost picture. The Maui Shimbun, a local Japanese paper, last week published an account of the ghost and it is said many Japanese are now afraid to go up the valley. The freak picture is undoubtedly the result of a chemical stain, probably due to imperfect washing of the negative after development.

## Supervisors Back Up Lahaina Wharf Demand

Backing up the demand of the people of Maui for a wharf at Lahaina, as already expressed through the chamber of commerce, the county board of supervisors, at a special meeting held last Monday, adopted the following resolution:

"Be it Resolved by the Board of Supervisors of the County of Maui, Territory of Hawaii, that the Legislature for the Territory of Hawaii be urged to make an appropriation during the present session thereof, sufficient to carry on the construction of a wharf at or near Lahaina for the ensuing two years, and that the said Legislature be further urged to appropriate for the use of the Board of Harbor Commissioners, sufficient funds to enable the said Board of Harbor Commissioners to make surveys and plans looking to the most satisfactory location for the said wharf; And that the Governor of the Territory of Hawaii and the Legislature be urged to make such appropriation available at the earliest possible date without strings or riders, and that the Board of Harbor Commissioners be urged to proceed with the said work at the earliest possible date."

## Maui May Get Money To Build 209 Miles Of Road

If Delegate Kalaniana'ole can make good in getting a few million dollars of federal money for roads in the territory, Maui stands to not only have a complete belt road from Lahaina to Hana, but also a road to the top of Haleakala and an extension to Kaupo and a few other out of the way places.

Kuhio, who was on Maui a few hours last Friday evening with the senatorial delegation enroute to Hawaii, told the chamber of commerce committee which met the party that he believes that Hawaii can secure a share of the \$300,000,000 which the government is to set aside for good roads throughout the United States. The federal money will be conditional upon the communities benefitted making a like amount.

**Maui Loses No Time** As a result of this possibility the Maui board of supervisors on Monday last adopted a resolution calling upon the Delegate to work for \$750,000 of the federal money for Maui. This implies that Maui is willing to raise an equal amount, or that a total of \$1,500,000 may become available for Maui roads.

**Asks Chamber To Kokua** The board figures roughly that this amount of money will build 209 miles of concrete road, allowing \$600,000 for grading the new road through the ditch country of east Maui.

**Money For High School Available**—The governor has signed the bill appropriating \$35,000 for a new Maui high school, and the money will be available by next December. **Plenty of Money in Sight**—With 1. of one percent added to Maui's tax rate on account of the new high school appropriation, Maui's total tax rate will be 1.752 instead of 1.74, and this, on a basis of valuation of from \$40,000,000 to \$44,000,000 will give Maui between \$700,000 and \$750,000 in tax money for the year instead of about \$550,000 as for the past year.
